

NUKI

UNIVERSAL CYLINDER

The Nuki Universal Cylinder is a modular door cylinder, designed specifically for Nuki Smart Locks. Our 2nd generation cylinders have been designed to simplify the installation and enhance the user experience.

Product Overview

- Easy to adapt:** Made of individual modules, making it extremely simple to adapt to different doors.
- Highest quality:** Drill resistant body and maximum protection against break-ins
- Simple to install:** Come with a physical measurement card and a step-by-step guide in the app
- Maximum security:** Security class SKG*** with EN 1303 and DIN18252 certifications
- Emergency function:** Allows using physical keys from the outside even with a Nuki Smart Lock installed on the door
- Three keys included,** extra keys & keyed alike cylinders available
- Security card:** Impossible to make unauthorized copies
